Warren County COVID update

November 14, 2022

Warren County COVID-19 data for November 8-14

* New cases since 11/8 – 117 (35 home tests)
* Hospitalizations as of 11/14 -- 13 (+2)
* Critically ill – 1 (unchanged)
* Deaths since April 2020 -- 138 (unchanged)
* 7-day average test positivity – 4.7%
* 128 patients were ill with COVID-19 in Capital Region hospitals as of 11/9, 9 fewer than the last NYS update.

NOTES: Warren County Health Services regrets to report an additional COVID-19-related death of a Warren County resident on November 7. An individual in their 90s died in a local skilled nursing facility after becoming ill at the facility.

DON'T GUESS. TAKE A TEST
A limited number of free COVID-19 home test kits remain available for the public at Warren County Municipal Center (DMV and Human Services Buildings entrances), town halls around Warren County and City Hall in the city of Glens Falls. They can be picked up at Warren County's complex Monday-Friday, 8 a.m.-5 p.m.
In addition, this New York State website can help you find the nearest location for a PCR test: coronavirus.health.ny.gov/find-test-site-near-you.
For those who are unable to get a test elsewhere, Warren County Health Services continues to

operate a COVID-19 testing site at Warren County Municipal Center that is in operation weekdays, 9 a.m. to 11 a.m.

The site is open, by appointment only, to residents of Warren, Washington, Saratoga, Essex and Hamilton counties.

Those with questions can call Warren County Health Services at 518-761-6580 or log on to warrencountyny.gov/covidhub.
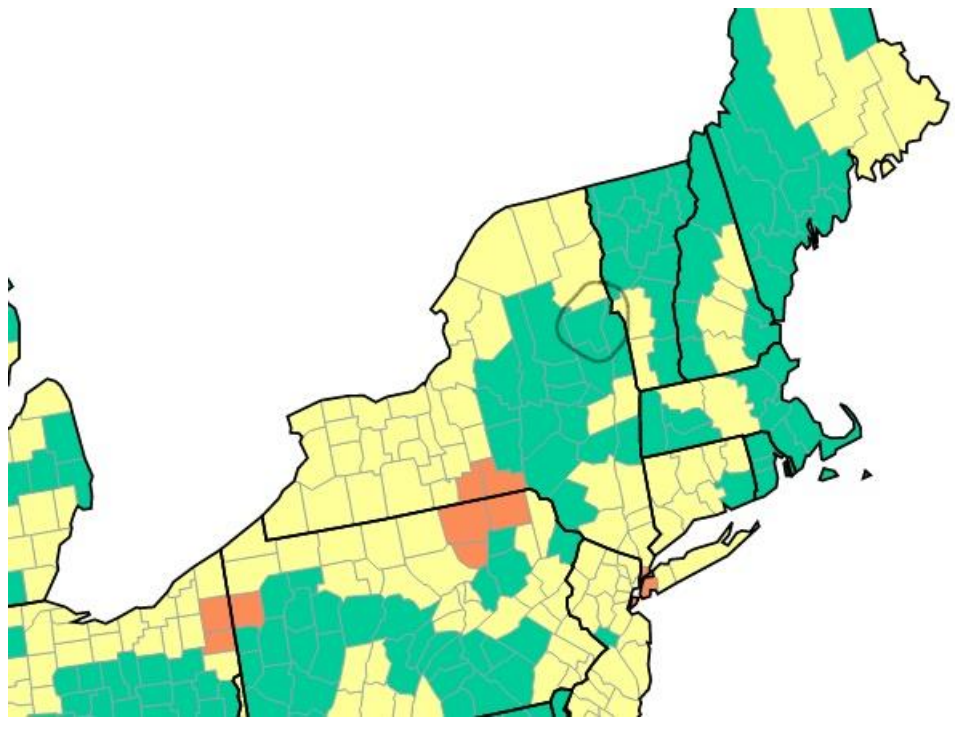

REPORTING A COVID CASE?

Please report positive home test results remotely via Warren County's web portal here: warrencountyny.gov/COVIDHomeTestReport. Anyone with questions can call Warren County Health Services at 518-761-6580.

Warren County residents who have a COVID-19 diagnosis from a home test or test at a medical facility or pharmacy can also refer to this NY State website for guidance: https://coronavirus.health.ny.gov/isolation. In addition, Warren County Health Services is continuing outreach to those who are newly diagnosed with COVID-19 to ensure they have access to information and resources as needed.
